

Nicks Fit Sheet - Page 1

Instructions

STOP

Please read and follow these instructions to better assist us in determining your proper fit. Thank you.

- 1) Wearing your boot socks, attach the lines where indicated using scotch tape and stand on this sheet of paper. Place one foot on the fitting form, lining up your heel where marked. Distribute your weight evenly on both feet. *Very important, **You must have someone else trace the outline of your feet.*** (Make sure the person assisting you holds a regular ink pen, not a marker, holding the pen straight up and down as they trace your feet. Repeat this instruction for the opposite foot.
- 2) While sitting with no weight on your feet, have the person assisting you *measure, all the way around the foot*, determining the circumference of your feet, at the ball, instep and heel (see diagram) with a cloth measuring tape. ***Gently pull the tape snug, then, ease off just slightly.***
- 3) While sitting, have the person assisting you measure around your leg at the 6", 8", 10", 12", 14" and 16" intervals measured from your heel, straight up your leg. ***Pull the tape snug but do not ease of,*** and continue to hold it snugly.
- 4) Please indicate on the fit sheet form, the model number *such as 25V, height 10", color, sole etc.* Also, if you have owned a pair of Nicks before, please let us know.
- 5) Please include any additional information, even if it is on a separate piece of paper, that may be helpful to our fitters when they are evaluating your fit kit, i.e. bunions, heel slippage, pain or problems you may have experience before with your foot wear.
- 6) Please answer all the questions re: your height, weight, type of socks (wool, cotton etc.) The make, style and size of footwear you now wear. *This information very much helps our fitters determine your fit.*
- 7) **Most Important:** Please take your time and be very careful with your measurements and drawings to insure the best fit possible.
- 8) Mail your form to Nicks Custom Boots, 3805 North Market St., Spokane, WA 99207. If you should have questions, please call us at 800-824-2685 for assistance.

Please Note: Due to the sizing inconsistencies caused by faxing, please return this fit sheet by mail.
